SUMMARY

Innovative **Frontend Developer** with 2+ years of experience crafting responsive and user-centric web applications. Proficient in scalable architecture, API development, database management, and performance optimization. Passionate about creating intuitive user interfaces and optimizing web performance.

CERTIFICATIONS

NVIDIA Gen AI LLM Associate - NVIDIA

March 2025

- Proven ability to design, deploy, and optimize generative AI & LLMs using NVIDIA's advanced tools & frameworks.
- Expertise in GPU-accelerated model training to enhance AI performance, fine-tuning, & inference workflows.

FULLSTACK DEVELOPMENT - Guvi IIT Madras

Dec 2024

- Front-end and Backend development, and Scalability using React, Node.Js, Express and MongoDB.

FUNCTIONAL SKILLS

- HTML, CSS, Javascript, Typescript, jQuery, mySql, MongoDB. • **Tools:** Visual Studio, Figma, Jira, Jest.
- **Frameworks:** ReactJs, Redux, Node js, Express.js, Flux. • **SDLC's:** Agile (Scrum) • **Build Tools:** Git, Github
- API design and integration. REST APIs, working with JSON data. Database Management - CRUD operations. Version control & collaboration. Testing and Debugging. Performance optimization.

PROJECT EXPERIENCE

WEDDING WISE - [APP LINK](#)

- Tech Stack: React.js, CSS3, RESTful APIs
- Description: Event management platform for wedding planning with vendor selection and budget management features
- Outcome: Successfully deployed platform enabling users to plan events and track budgets efficiently

KEEPER - [APP LINK](#)

- Tech Stack: React.js, CSS3, Local Storage
- Description: Note-taking application inspired by Google Keep with CRUD functionality
- Outcome: Created an intuitive interface for managing digital notes with real-time updates

PROFILE DECK - [APP LINK](#)

- Tech Stack: React.js, Material UI, REST API
- Description: Profile management system with dynamic search capabilities
- Outcome: Developed a responsive interface handling complex user data with efficient search functionality.

PROFESSIONAL EXPERIENCE

GRAVVITY

Software Developer

Toronto, ON

Apr 2023 - June 2024

- Led e-commerce interface development in React.js, building foundation for Meta & Apple Vision Pro integration.
- Accelerated project timelines by 30% through efficient Figma wireframing and close collaboration with the CEO, ensuring streamlined development and faster decision-making.
- Enhanced app performance by 30% and increased user engagement by 25% by optimizing API integrations and leveraging React hooks for improved state management and responsiveness.

VANKAY SYSTEMS

Frontend Developer Intern

Raleigh, NC

Jan 2022 - Dec 2022

- Built 20+ reusable UI components using React and TypeScript, reducing development time by 30%
- Implemented standardized form validation patterns, improving data collection & user experience

EDUCATION

UNIVERSITY OF GUELPH

Guelph, Canada

Bachelor's in Computing

2022

- **Core Courses** - Data Structures and Algorithms, Database Management Systems, System Design and Analysis
- UoG Entrance Scholarship of \$13000 for outstanding academic achievement.
- Teaching Assistant - Introducing to Computing - C programming.
